bold

The smart choice: replacing your normal cylinder with a Bold Elite

Auto Entry
Hands-free, fast, effortless

Walk up to the door with your phone in your pocket. Bold recognises you instantly and automatically activates the lock. Simply turn the knob and step inside. No keys and no searching. Just seamless, hassle-free entry. Exactly how it should be.

Peace of mind in your pocket
Check your lock status anytime, anywhere

Whether you're at the park with your kids or in a late-night meeting after closing your café, you can instantly check your lock status via the app. Rest easy knowing your door is securely locked.

Requires a Bold Connect.

Your nightly security routine, simplified
Gentle reminders for restful nights

Set a time, and let Bold keep you on track. If your door isn't locked when it's time to wind down, you'll receive a notification. It's the little assurance you didn't know you needed.

Requires a Bold Connect.

bold

Leave without a second thought

Get notified when your door isn't locked

Running out the door in a rush? Bold has your back. If your door is unlocked as you leave, you'll get an instant notification. Step out confidently, no second-guessing needed.

Requires a Bold Connect.

Stay alert to suspicious activity

Tamper detection, for proactive security

If your lock detects tampering, like banging or other suspicious movements, you'll be alerted immediately. For example, if you're on vacation, you'll instantly know about any activity at your business/home. Stay informed, no matter where you are.

Requires a Bold Connect.

Backup PIN code

Access anytime, no phone needed

Forgot your phone? No worries! Use your personal backup PIN to unlock the door without any fuss. Whether your phone is dead or left behind, your simple PIN code gets you in. Stay in control wherever you are.

10 new features:

Tamper Alert

Receive a notification if someone tampers with your Bold Elite, keeping you informed and in control at all times.

Leave Alert

Get notified when your Bold is still unlocked after you've left your home or business, so you never have to worry about forgetting.

Night Alert

Set a bedtime reminder to ensure your door is locked. If the lock is still open, you'll receive a notification before heading to bed.

Locked Status

Check your lock's status anytime, anywhere. Whether you're home or away, you'll always know if it's locked or unlocked.

Button Auto Disable

Prevent letterbox fishing by disabling the inner knob as soon as the Bold Elite is locked, keeping your home secure from burglars.

bold

Follow-in Protection

After locking the door, the Bold Elite instantly deactivates to stop anyone from quickly opening the door behind you.

Matter-ready

Easily connect the Bold Elite to other Matter-compatible devices for a seamless smart home experience.

Battery Save Mode

Not using your lock often? Extend battery life up to 8 years by activating energy-saving settings, perfect for low-usage situations.

Turn to Boost

Boost the Auto Entry signal by turning the outside knob, ensuring faster activation when you're nearby.

Signal Strength

Adjust the Bluetooth signal to suit your needs, boost it for quicker Auto Entry activation or reduce it to save energy and minimise interference.
