

A close-up photograph of a person's hand using a fingerprint scanner on a door handle. The door handle is a sleek, horizontal, brushed metal bar. The fingerprint scanner is a small, cylindrical device mounted on the handle, with a glowing green ring around the sensor area. The background is a blurred view of a window and outdoor scenery.

Bold Elite

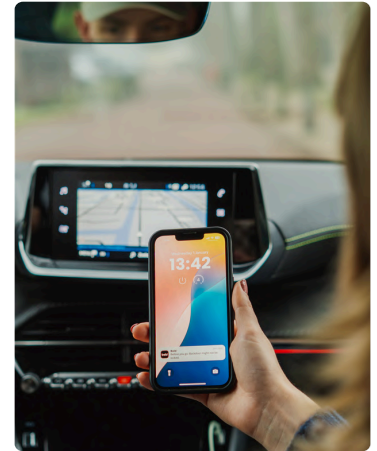

Meet the Bold Elite: the ultimate upgrade that leaves traditional cylinders behind.

With a sleek design, SKG*** certification, and features like Auto Entry and smart notifications, the Bold Elite offers maximum security and everyday convenience.

Easy to install and always controllable via the app – whether you're at home, at work, or on the go.

The Bold Elite at a glance

- Perfect fit for all euro profile cylinders
- Highest security level with SKG*** certification
- Battery lasts up to 3 years (up to 8 with Power Save Mode)
- Smart notifications including Tamper, Night, and Leave Alerts
- Backup PIN: No phone? No problem. Your personal PIN always grants access
- Always know if your door is locked – right from the app, wherever you are
- Follow-in Protection disables the Bold Elite immediately after locking, so no one can slip in behind you unnoticed

Bold Elite colours

The sturdy cylinder is made from brass and hardened stainless steel, with knobs in brushed satin chrome.

SX 63	Max 65 mm	30 - 45 mm
SX 35	Max 35 mm	50 - 65 mm
SX 45	Max 45 mm	50 - 65 mm
SX 55	Max 55 mm	50 - 65 mm
SX 65	Max 65 mm	50 - 65 mm

weight

375 grams

operating temperature

Inside	+10°C to +40°C
Outside	-20°C to +80°C

power supply

battery

The Bold Elite uses one CR123A 3V battery (non-rechargeable), available in stores and online.

battery life

3 years (8 years with Power Save Mode)

communication

bluetooth 4.0+

The Bold connects wirelessly to your phone via Bluetooth.

encryption

Multi-layer, end-to-end, standards-based protocol using TLS and AES-128-CCM encryption.

smart home

Works with smart home platforms like Homey and Google Home, and is fully Matter-certified.

marks of conformity and certification

SKG*** certification

With SKG*** certification, the Bold Elite offers top-level security and meets the requirements of the Dutch and Belgian Politiekeurmerk Veilig Wonen.

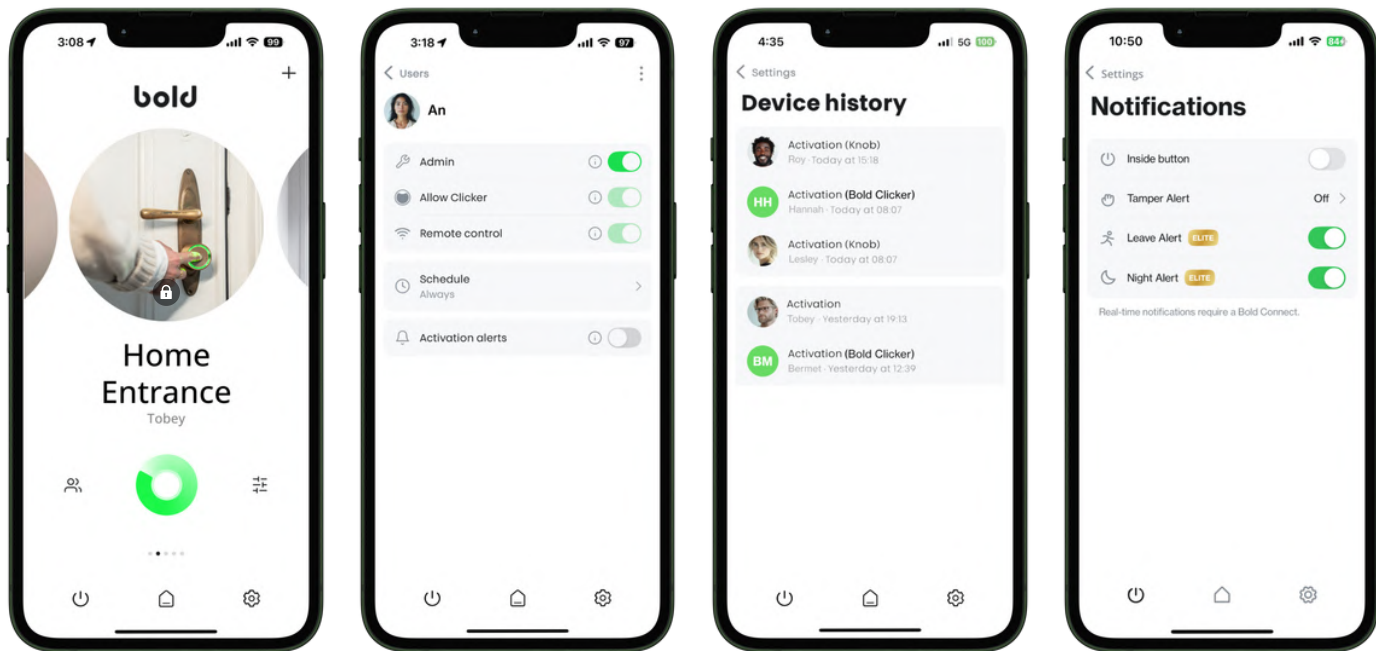

lock activation

access methods

- Control via app (also works offline)
- Manual unlocking with push button ('Push & Go')
- Backup PIN with unique rotation pattern
- Automatic keyless entry
- Remote unlocking via Bold Connect
- Unlocking with Bold Clicker

outdoor/indoor

The Bold Elite is suitable for doors with both an interior and exterior side, and not for gates or doors with two exterior sides, such as garden gates.

Features in the Bold App:

- Easily manage users and grant or revoke access with a single tap.
- Check at any time whether your lock is locked or unlocked – wherever you are.
- Set access schedules: permanent, weekly, or temporary.
- Receive smart notifications for suspicious activity or if you forget to lock the door.
- View the activity log to see who used your Bold, when, and how.

10 additional advanced features - only with the Bold Elite.

Tamper Alert

Receive a notification if someone tampers with your Bold Elite, keeping you informed and in control at all times. Requires a Bold Connect to activate.

Leave Alert

Get notified when your Bold is still unlocked after you've left your home or business, so you never have to worry about forgetting. Requires a Bold Connect to activate.

Night Alert

Set a bedtime reminder to ensure your door is locked. If the lock is still open, you'll receive a notification before heading to bed. Requires a Bold Connect to activate.

Locked Status

Check your lock's status anytime, anywhere. Whether you're home or away, you'll always know if it's locked or unlocked.

Button Auto Disable

Prevent letterbox fishing by disabling the inner knob as soon as the Bold Elite is locked, keeping your home secure from burglars.

Follow-in Protection

After locking the door, the Bold Elite instantly deactivates to stop anyone from quickly opening the door behind you.

Matter-certified

This means the Bold Elite works seamlessly with other Matter-enabled devices, regardless of brand. Control your lock together with your lights, sensors, and thermostats - all from one app.

Battery Save Mode

Not using your lock often? Extend battery life up to 8 years by activating energy-saving settings, perfect for low-usage situations.

Turn to Boost

Boost the Auto Entry signal by turning the outside knob, ensuring faster activation when you're nearby.

Signal Strength

Adjust the Bluetooth signal to suit your needs, boost it for quicker Auto Entry activation or reduce it to save energy and minimise interference.
